Amy Greenberg Selected as Director of TTB's Regulations and Rulings Division

We are very pleased to announce that Amy Greenberg has been selected as Director of TTB's Regulations and Rulings Division (RRD) effective February 8, 2015. Amy came to TTB in 2004 as a Presidential Management Fellow and was instrumental in building TTB's Tobacco Program from the ground up. Besides serving as Program Manager of the Tobacco Program, Amy has also served as Assistant Director of RRD and has led many complex regulatory projects, including implementing the Children's Health Insurance Program Reauthorization Act provisions and current work on implementing TTB's International Trade Data System under the President's Executive Order on Streamlining the Export/Import Process for American Businesses. Amy's in-depth knowledge of and experience in the regulatory process and in representing TTB before Department officials, Congressional staffs, and to the public, make her a tremendous asset to the Bureau in her new role. Please join us in congratulating Amy!
